

Input data ORCHESTRA

- each Excel tab shows the calculation of the mentioned input parameter for ORCHESTRA (input parameters are highlighted in red)
- the ORCHESTRA input file with associated links to calculations in the other tabs can be found under the tab "INPUT".

ORCHESTRA

- All files and directories should be downloaded to run ORCHESTRA properly
- ORCHESTRA can be opened through the runorchestraII.bat file in the "Geochemical multi-surface modeling of reactive Zn" folder
- input.dat and output.dat can be read in Excel to ensure readability
- samples in input.dat are ranked based on pH to increase iteration speed of ORCHESTRA
