

First Session

CHALLENGE
What is happening? Why is it a problem?

How can we keep using the apps we like and still maintain our privacy?

YOUR IDEA
Be creative! Imagine anything is possible and can be done. What would you do?

You can have an app that checks and tells if your data is being stolen and keeps it safe.

We can create a safer app

OPPORTUNITY
What would be a possible solution? What could be done?

You can change your settings when it asks you to accept cookies

You can ask the company to stop tracking you

CHALLENGE
What is happening? Why is it a problem?

Sometimes it is not clear what we are agreeing to or what we can do

YOUR IDEA
Be creative! Imagine anything is possible and can be done. What would you do?

Create a warning that comes up whenever data is going to be collected about you

For Social Media, create a section that is easy to access and show the data that is collected, and have the option to delete

I would make the cookies more fun to read and make it easier to read. Use first & easy to fit the essential agreements on 1 page

The company should be quicker to react to block people and answer reports on social media

OPPORTUNITY
What would be a possible solution? What could be done?

Call the apps to express our ideas on how to prevent data from being collected on kids

Go to the settings and read the "terms of agreement"

Call the apps to delete data about the people on those apps

CHALLENGE
What is happening? Why is it a problem?

We cannot choose the data we share or with whom

YOUR IDEA
Be creative! Imagine anything is possible and can be done. What would you do?

Ban all bad people online

OPPORTUNITY
What would be a possible solution? What could be done?

If possible, reject cookies and avoid sharing any private info or chatting on apps

CHALLENGE
What is happening? Why is it a problem?

It is a problem because the information is yours

Companies collect about of data about us but we don't get to use it

Because we don't know what sort of data they are collecting

Because it can be dangerous because they get a lot of data and use it for you don't get to do anything with it

YOUR IDEA
Be creative! Imagine anything is possible and can be done. What would you do?

Try to hack them =)

Block them of course or tell them to erase our data and restrict their access

If I am still a child, then I would ask a parent (my parents) to help me with this problem and if I'm lucky enough then the company can remove my info

We could ask the company to erase our data and restrict their access to our data

OPPORTUNITY
What would be a possible solution? What could be done?

Tell the company that we should be able to use the information because it's ours

We could ask the company to erase our data and restrict their access to our data

CHALLENGE
What is happening? Why is it a problem?

Companies store our data forever

YOUR IDEA
Be creative! Imagine anything is possible and can be done. What would you do?

OPPORTUNITY
What would be a possible solution? What could be done?

Go incognito

Only while using the app

Use appropriate apps

One day limit

Use a different account, email, password, data

Use safe apps

Second Session

CHALLENGE
What is happening? Why is it a problem?

How can we keep using the apps we like and still maintain our privacy?

YOUR IDEA
Be creative! Imagine anything is possible and can be done. What would you do?

Reject all cookies if you can. If not, go to settings!

Hack

OPPORTUNITY
What would be a possible solution? What could be done?

Decline all cookies if you can

CHALLENGE
What is happening? Why is it a problem?

Sometimes it is not clear what we are agreeing to or what we can do

YOUR IDEA
Be creative! Imagine anything is possible and can be done. What would you do?

Play all the terms and conditions like an audiobook and only let you continue until it is done

Beam it into their brain

I would have my own app called true things for notifications (Drawing of logo of the app)

Hypnotize them

OPPORTUNITY
What would be a possible solution? What could be done?

Not store the data or not use the website

We could see a short video of what data they are collecting

Ask the company for their policy

Notifications

Drawings Policy This will take your data

Ask / consult to an adult

CHALLENGE
What is happening? Why is it a problem?

Every company can see your private information

Too much data is collected

We cannot choose the data we share or with whom

YOUR IDEA
Be creative! Imagine anything is possible and can be done. What would you do?

An automatic sorter for things people want and don't want to share

Invent a world without bad people

OPPORTUNITY
What would be a possible solution? What could be done?

Survive without the internet

In some games and websites you get a backup password

Talk and discuss with a trusted adult

To create a world without hackers

Use letters that deliver a message. (Printed letters instead of digital messages)

CHALLENGE
What is happening? Why is it a problem?

Companies collect about of data about us but we don't get to use it

YOUR IDEA
Be creative! Imagine anything is possible and can be done. What would you do?

An app to access the information companies get from us

An app that protects your information

OPPORTUNITY
What would be a possible solution? What could be done?

An app that can protect our data

CHALLENGE
What is happening? Why is it a problem?

Companies store our data forever

YOUR IDEA
Be creative! Imagine anything is possible and can be done. What would you do?

Get money every time you give websites your data

There should be cyber police for each city and we should have two email addresses, like two identities

OPPORTUNITY
What would be a possible solution? What could be done?
