

Case study Promise Me - 1st survey (pre-game)

Dear player,

Thank you for joining our game sessions with the art game *Promise Me!*

They are part of a research project that aims to study the audience reception of art games and to improve the effects of serious games.

Please answer this survey before playing *Promise Me*.

1st survey - instructions

Please do not think about your answers too much. There are no right or wrong answers; we are only interested in your personal views. You may get the feeling that questions are duplicated; indeed some of the questions are similar, so we can conduct proper analyses.

The survey takes about 5 - 8 minutes to complete.

After the game session, we invite you to fill in a second survey about your experience with the game.

Questions or remarks? Please do not hesitate to ask us in person or by e-mail.

With kind regards,

Manuela Viezzer (artistic researcher and artist) - manuela.viezzer@gmail.com

Q1

First, we have some questions about your view on art as a tool for social change.

Art has a material/tangible side (artworks are objects in the world, and for example, they can be collected) and art also has an ideal/spiritual side (artworks contain ideas about the world).

Where would you position 'art' on a continuous line between 'object' and 'idea'?

Use the slider below to indicate your answer.

Q2

Please indicate for each of the following statements to what extent you either agree or disagree.
