

**Publication Title:** Supporting the Design and Development of Solar Cooling Integrated Façades:  
A Framework of Decisions, Information, and Stakeholder Involvement

**Introduction**

The data are organized based on the following main steps followed in this study:

- Step 1: Conducting a desk research conducted over relevant topics
- Step 2: Distributing a pre-workshop survey over stakeholders
- Step 3: Moderating the workshop with participants representing key stakeholders
- Step 4: Validating the design and development aspects through a design experience survey

Step	Folder Name	File name (and format)
<b>1. Desk research</b> [The file(s) start with “A”]	A. Desk Research and Analysed Relevant Publications	<ul style="list-style-type: none"><li>• PDF</li></ul>
<b>2. Pre-workshop survey</b> [The file(s) start with “B”]	B.1. Pre-Workshop Survey	<ul style="list-style-type: none"><li>• PDF</li></ul>
	B.2. Pre-Workshop Survey Results	<ul style="list-style-type: none"><li>• Microsoft Excel Worksheet</li></ul>
<b>3. Co-creation workshop</b> [The file(s) start with “C”]	C.1. Workshop Protocol	<ul style="list-style-type: none"><li>• PDF</li></ul>
	C.2. Transcript	<ul style="list-style-type: none"><li>• PDF</li></ul>
	C.3. Workshop Report	<ul style="list-style-type: none"><li>• PDF</li></ul>
<b>4. Design experience survey</b> [The file(s) start with “D”]	D.1. Validation Survey	<ul style="list-style-type: none"><li>• PDF</li></ul>
	D.2. Validation Survey Results	<ul style="list-style-type: none"><li>• Microsoft Excel Worksheet</li></ul>
